Don;

Just a follow up on the windows your company My Home Contracting installed last year.

I thought you would like to know how they hold up against an attempted burglary.

Yesterday (6/20/11) after working all day we came home to find out that someone had tried breaking into our house. The great news is they did not succeed ! After trying the five windows on the back of the house they gave up. The police were called and they took finger prints and said this was the first house they did not get into (Auburn has been having some break ins lately). The windows all held up to the pry bar they were using and of the five windows only one glass cracked !

The police were very impressed with the quality and strength of the Alside Excalibur windows and could not believe that none of the window locks broke and that they held up so well.

So in closing thanks for your quality work and such great windows !

We know we saved on the heating bill last year with the new windows and now we know how strong these windows really are.

Thank You  
Sincerely,

A handwritten signature in black ink that reads 'Kenneth M. Warren'.
