Dear Don,

This letter of recommendation may be a little late in coming but that should in no way lessen its veracity. Margo and I are extremely pleased with the result of the siding job performed by your outstanding team of Stan, Jayson and Ray under the overall supervision of Jayson Haberstroh.

The job went very smoothly and was completed on a timely basis. Daily cleanup was meticulous, as promised. All of your team members were a pleasure to have around; always attentive and respectful. Margo enjoyed baking fresh pastries and making coffee for break time each day. Your men went over and above requirements when they evicted a particularly large nest of bees from a crawl space; that was quite an adventure!

A few weeks after the job was completed, to our full satisfaction, we encountered a water drainage problem that occurred as a result of our direction to remove gutters and install a water diverter instead. I called Jayson Haberstroh and within a few days, Stan and Jayson stopped by on their way home after a full day of work and replaced the gutter, thereby solving our problem.

Many neighbors have commented on the fine workmanship and overall appearance of our siding job as compared to others. It is our pleasure to recommend your company in the strongest possible way to any and all of your perspective customers.

Sincerely,

Art and Margo Andrew
