Don, I just want to write you a personal note to say thank you very much!!! Melissa and I couldn't be happier with the work and how it came out. Love the house, now onto other projects before the family starts!! ☺

More importantly I want to thank you for dealing with a pain in the neck like myself. Not only did you deal with the hundreds of questions I ask but you sincerely cared about the little details as you promised. You and the entire team were so accommodating and made us both feel as though they were family and not just another job for your team. I sincerely hope I can find other professionals for house projects that I respect and trust as much as yourself. I would love to convince you to build my deck next spring!! Seriously.

Don, if you would like me to write a more thorough testimonial or recommendation, I am certainly willing to do so.

Testimonial I promised:

Special thanks to Don and his entire MyHome Contracting team on the windows & siding project. I couldn't have been more satisfied with the entire experience, from Don's honest, upfront approach to the team's meticulous, detail-oriented work. I reviewed and received quotes from over 10 companies before deciding on MyHome based on Don's integrity, professionalism, and willingness to openly and thoroughly answer my "way too many" questions. I was told that they care about MY house as much as their own and they proved it!! I truly mean that. They were courteous, clean, respectful, and most importantly did a top-notch job!! Thank you again. We have received many compliments on both the look and craftsmanship of the house already.

I would be first in line to recommend My House Contracting.

Matt Clerc
