Hi Don & Lisa,

Wanted you to see how beautiful our house looks with the new siding and windows. I love everything about it, the color, the shakes, the shutters and of course the windows. They are just so easy to take care of. We've had so many people comment on how nice it looks and they can't believe that the siding is vinyl. (Which John said he would never have.) Everyone was so great. Jason was wonderful and always keeping an eye on things. Al and his crew did great with the windows. And Don, if we had any concerns or questions then you and Jason were here all most before I called you. Lisa was so nice on the phone that I felt like I knew her.

I just love MY HOME!

Job well done.

Donna from Goffstown
