Don - Pam and I want to thank you, Mark, Al, and most of all, Joe and Joe, for the outstanding job of residing our home. It could not have turned out better! We have just been standing outside since the guys left enjoying it.

Several things really made the difference in this project, and were key reasons why we selected myHome Contracting:

First, your comment when we first met about being sure who would stand behind the work if there was ever an issue. While we do not expect to have any, the way you, Mark and Joe worked with us made it very clear that if there ever is an issue, you will be here. That meant a lot.

Next, Joe senior and Joe junior - they are craftsmen, and I must say I learned more about our house from them in the two weeks they were here than in many years prior. But most importantly, it was they they treated us - we were never left with the feeling that, if we had a question, we were interrupting them. They made us a priority, and that rarely happens these days. It also became very clear that they took great pride in their work - that's contagious, and we enjoyed watching them work on our house knowing the effort they were putting into it, particularly Joe senior with the metal work.

Finally, the details - when you were out measuring our house, you said you would make every detail clear, there would never be any gray areas, and you would deliver per your proposal. It's been just as you said - business done right. Thank you!

We are going to enjoy your work for many years to come. Please thank everyone at myHomeContracting for us.

Cordially,
Pam & Greg
